**DETAILED ACTION**

***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Andrew Telesz on 6/15/07.

Claim 23 has been cancelled since Rice et al (Figs. 4 and 6) reads on claim 23. The element 30 in Rice et al can be read as the claimed oscillator, the element 60 in Rice et al can be read as the claimed frequency divider, and the element 35 in Rice et al can be read as the claimed comparator.

***Reasons for Allowance***

Claims 21, 22 and 25 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 21, the closest prior art of record, Rice et al (Figs. 4 and 6) does not disclose the following limitations: the signal output from the PLL circuit is input to the cathodes. Regarding claim 25, the closest prior art of record, Rice et al (Figs. 4 and 6) does not disclose the following limitations: the control signal is input to the cathode of the second varactor diode and the one end of the second capacitor.

Art Unit: 2817

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry Choe whose telephone number is (571) 272-1760.
